

## Mission Accomplished - Trade Show Success

**The Challenge:** You've got a tight deadline, the trade show is two weeks away and you need show stopping material ASAP. Should you throw in the towel? Not when **ebimage** is on the job.

Just ask Orla Johnston of SOCS Retail Solutions Inc.

**Orla's Story:** I have a client that had a trade show looming and a need for new material. A show stopping design and buying Canadian was mission critical for both of us. I called **ebimage** and explained my dilemma: A trade show in two weeks and a need for 250 presentation pieces – and they delivered. Larry was very helpful. He was amazing managing the project details and actually got me the product ahead of schedule. We think of **ebimage** as a trusted partner, someone we can count on that really delivers. I impressed my client and most importantly, my client impressed at the trade show.
